

LIGHT-KEEPER'S DWELLING AT POINT SUR, CALIFORNIA.

L E T T E R

FROM

THE SECRETARY OF THE TREASURY,

CANCELING

ESTIMATE FOR KEEPER'S DWELLING AT POINT SUR, CALI-
FORNIA.

JANUARY 13, 1902.—Referred to the Committee on Appropriations and ordered to be printed.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, January 11, 1902.

SIR: This Department, at the instance of the Light-House Board, has the honor to refer to the recommendation made in the board's last annual report and in the current Book of Estimates that an appropriation of \$6,000 be made for erecting a keeper's dwelling at the Point Sur, California, light-station.

From a recent special investigation of the needs of that light-station the board has concluded that the engine house at that place can be so altered as to make it suitable for residential purposes. The cost of this inconsiderable work can be met from funds in hand.

The Department concurs with the board in asking that the recommendation made in its estimates for an appropriation of \$6,000 to erect a keeper's dwelling at Point Sur, California, be canceled.

Respectfully,

L. J. GAGE, *Secretary.*

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.
